

Egg Challenge

Each team have 1 hour to design and build a receptacle capable of carrying an EGG 20 metres without it cracking.

- Team members are not allowed to carry it; it must be thrown the required distance)
- After travelling the required distance, the egg must be removed from the receptacle in under 30 seconds.
- Each team will have only two eggs. One egg may be used as a test egg.
- Each team are given 2500 credits to spend on items to build the receptacle. (No other equipment is allowed)

Resource	Credits	Cost
